Bedding

Handwoven **Weighted Blankets**

We wanted to reinvent the weighted blanket. That's why Silk & Snow's weighted blanket is made with a beautiful knitted construction and is naturally breathable.

That means you get all of the beneficial stress free comforts of a traditional weighted blanket without pesky glass pellets. Plus, we offer multiple weight choices so you can get the perfect sleep!

Our Weighted Blanket ensures you de-stress comfortably by allowing greater breathability when compared to conventional weighted blankets.

Flax Linen

Experience an easy-breezy, comfortable sleep with our pristine linen bedding, made with 100% European Flax.

Manufactured in the historical textile city of Guimarães in Portugal our Flax Linen Sheets are fabricated with centuries of heritage and expertise behind every stitch.

Nobody likes to wake up feeling sweaty. With a lightweight and unbelievably breathable feel, our linen bedding is the epitome of carefree comfort. Toss in fantastic moisture-wicking and anti-static properties, and you have a recipe for a relaxing night's rest, every single night.

Egyptian Cotton

Smooth, lustrous, and oh-so-soft, our 100% certified long-staple Egyptian Cotton sateen is the key to luxuriously comfortable sleep.

Egyptian Cotton is the softest and most durable variety of cotton on the planet, due to its extra long staple length. Manufactured in the historical textile city of Guimarães in Portugal, these Egyptian Cotton sateen sheets are woven with centuries of expert craftsmanship behind every stitch.

Muslin

Made from 100% cotton, our gentle, lightweight muslin is satisfyingly textured for a soft, soothing sleep.

Muslin bedding is perfect for sleepers who sleep hot, as the unique weave of the fabric allows for a cool sleep.

Muslin bedding is among the softest available, which is why it's the preferred bedding material for babies. Additionally, muslin gets softer and softer with each wash, making this bedding oh-so-cozy. Get sheets soft enough for a newborn, with a little extra style.

Silk Pillowcases

Made from 100% silk, our perfect silk pillowcases ensure you take care of your hair and skin while enjoying a soft, luxurious sleep.

Our silk pillowcases are free of toxic dyes and are manufactured consciously.

Perfect for anyone with sensitive skin!

Alpaca Throws

Made completely from 100% pure alpaca wool sourced from generational breeders in the Peruvian Andes, our Alpaca Throw Blankets are lighter, warmer, and softer than merino wool, and provide the perfect touch of colour to any home.

Unlike other popular throw materials such as merino or cashmere, alpaca fibre grows naturally in 22 beautiful colours, allowing us to completely avoid the use of harsh dyes. Enjoy the simple beauty of mother nature's palette.

All of the alpaca fibre used in our throw blankets come from storied Alpaca breeders in the Peruvian Andes.

What our customers are saying

“

I went on vacation 2000 miles
away and 'had' to take my
blanket along...

This is a great mattress, it was
immediately the best and most
comfortable one I've ever
owned.

Your weighted blanket is
far superior compared to all
weighted blankets I have
ever seen or felt.

I love my duvet cover and shams.
Material is so light and super soft.

I can't sleep without it anymore!

Love this bed! Have recommended
to so many!
